## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which the subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 4-7, 9-13, 27, and 30-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goers et al, 6,722,952 in view of Homola, 2004/0096705 and Hayden, 4,606,738, as set forth in the office action mailed 11 April 2008.

### ***Response to Arguments***

3. Applicant's arguments filed 09 July 2008 have been fully considered but they are not persuasive. Applicant argues that Hayden discloses a carbonaceous coating on diamond particles used as abrasive, but not on nanodiamond particles used as abrasive. The examiner agrees that the particle size taught by Hayden is not in the nano range, however, Homola clearly teaches that nanodiamonds used as abrasive is old. Hayden is relied on to teach that carbonaceous coatings on the abrasive material aids in bonding the material to the tool matrix. Applicant has not provided any evidence that the teaching of Hayden would not function on the nano particle size level.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maurina Rachuba whose telephone number is 571 272 4493. The examiner can normally be reached on Monday-Friday.
